

Wastewater Continuing Education Opportunity:  
**CSO/SSOs and Sludge/Solids**

Join us for this training event that will help operators deal with state and federal regulations as they pertain to CSOs and SSOs. It will also discuss compliance and other

issues concerning CSOs and SSOs, such as self-assessment, permitted overflows, reporting and capacity management. In addition, proper disposal techniques, regulations and other issues and concerns with handling sludge and solids from the treatment system will be discussed. Information pertaining to the impact of alternative methods and future management of sludge and solids from waste facilities, including some recycling and reselling alternatives, will be presented.

Guest speakers will include representatives from AJ Enterprises and KY Division of Water to discuss CSO/SSO myths, regulations, tips, hints and things to avoid.

Do you have questions? Call us at 800-926-8111.

**Course Date:** Sept. 22-23

**Course Number:** WW 9808

**Training Hours:** 12

**Location:**
